FEATURES—
- Programmable keypad stores up to 20 unique 4 to 10 digit user codes.
- Easy programming - add or delete user codes as needed.
- Admin code - prevents unauthorized user code adds or changes. Only the person with the admin code can reprogram.
- Keypad illuminates for easy nighttime use.
- NightWatch™ feature prevents an intruder from entering, even if they have a copy of the key.
- BumpStop™ advanced cylinder technology resists bump attacks.
- Silvabond antimicrobial finish provides a permanent barrier to fight the spread of germs, mold and mildew by contact.
- Meets ANSI grade performance standards.
- Uses four AAA batteries - included.
- Back up key may be used for keyed access.

NightWatch™ locks out all keys, even copies of your key. Enjoy the peace of mind knowing that unaccounted keys are rendered harmless.

When the NightWatch feature is engaged, the lock cannot be opened from the outside, even with a duplicate key. Can only be engaged or disengaged from the inside of the home.

To use: lock the deadbolt. Press up on the safety button while pulling lever to engage NightWatch® lockout feature.

BumpStop™ Advanced Cylinder Technology. Specially engineered to resist bump attacks, one of the fastest growing home security threats.

SPECIFICATIONS
- DOOR THICKNESS: 1-3/8" to 2"
- BACKSET: 2 round corner latches, one 2-3/8" and one 2-3/4". Use the one you need.
- STRIKE: 1-1/8" x 2-3/4" square corner
- BORE: 2-1/8" x 1"
- KEYWAYS: KW1 Kwikset or SC1 Schlage
- FINISHES: 03P Polished Brass
- 05 Antique Brass
- 12 Aged Bronze
- 15 Satin Nickel

*NOTE: Lock with the SC1 keyway uses Ilco 15995 cylinder so many keyways are available by changing the cylinder.
KEY ACCESSORIES
(By manufacturer’s name)

BALL CHAIN COMPONENTS
No. 6 nickel plated steel ball chain comes on a roll of 100 feet. No. 6 is 1/8” diameter in size. Couplings: hole in the back of the connector can be used to loop the chain, attach a ring or other fitting for added versatility.

- Spools
  Stock No.  LKC-31700
  No of Pcs  100 ft.
  PKG  No. 6 Nickel Plated Steel

- Couplings
  Stock No.  LKC-31900
  No of Pcs  100/pkg
  PKG  No. 6 Nickel Plated Brass

BALL CHAIN
Pre-cut ball chain with connector attached. Keeps keys securely together. Chain ball locks into end of connector to close. Made of nickel-plated steel. 4-1/2” long.

- Stock No.  LKC-31402
  No of Pcs  2/cd-5/pkg
  PKG  Skin card

MITY-MITE® KEY RING
Flexible, flat link stainless steel. Collapses to fit easily in a pocket. Measures 5-3/8” in length.

- Stock No.  LKC-43201
  No of Pcs  1/cd-5/pkg
  PKG  Skin card

The Flexible Remote Skins®
Transform your car remote! Protect, customize and repair your car remote. Made of soft, water-resistant neoprene which limits fraying. Tough, clear vinyl window provides high visibility of remote buttons. Slip the cover over a broken remote to make broken remote usable again. Available in three models: GM, Ford & Universal (fits most Toyota and Honda remotes).

Examples of some Lucky Line packaging, subject to change

SK-1
Heavy-duty die-cast case with a 21” stainless steel chain and large key ring. Returns keys and other articles automatically. Ideal for custodians, watchmen, service station attendants and many others. Also great for welders to carry torch igniters. Available with regular belt clip that clips over belt.

SR-001843
Key case with powerful magnet attaches to almost any clean surface. Stor-A-Key can be used for emergency access to vehicle or house keys. Weather resistant plastic will not rust. Foam insert and strap keeps key in place.

REMEMBER: If you don’t see what you need, please contact us with your requirements.
SELECT ACCESS
Key Storage Security Program
No Lockouts — No Schedule Conflicts

Large key storage compartment—holds over 5 door or car keys. 4-dial resettable combination lock—provides simple, set-your-own combination convenience. Solid die cast body—reinforced to withstand hammering and sawing. Zinc lock body and shutter door—weather resistant for years of dependable operation.

SHURLOK

• Never be locked out again.
• Patented feature—One combination opens the shackle and another combination opens key department.
• Secure—10,000 possible combinations.
• No front lid to fall off.
• Durable—all metal construction.
• Hardened steel shackle.
• Easier to use and recombine.
• Zero locking—can be opened in dark or by vision impaired.
• Rust resistant
• 1 year warranty.

"Set-Your-Own Combination" Luggage Lock

Security, convenience and style combined. Personal size combination locks are ideal for use with luggage, briefcases, sport bags and tool boxes. And with the Master Lock "Set-Your-Own Combination" lock, a simple four-step process allows the user to set a combination that's easy to remember because it's truly personal.

In addition, the "combination window" design on the body of the lock makes the numbers easy to read. For portable, convenient security on luggage, briefcases and cabinets, the Master Lock "Set-Your-Own Combination" is the lock of choice.

1. Corrosion-Resistant Brass-Plated Steel Shackle
2. Windows Make Viewing Combination Quick & Accurate
3. Black Zinc Alloy Body Complements Lockables
4. Combination Can Be Easily Changed
5. Ideal for Luggage, Briefcases, Sport Bags, Backpacks, Tool Boxes and Cabinets
6. Lifetime Guarantee

### HASPS

#### HIGH SECURITY HASPS - RETAIL CARDED

High Security - Special Application

- Single and double hinged designs are ideal to fit most corners and angles to secure hard-to-lock property. Recommended for use with Master Lock medium and high security padlocks.
  - Heavy gauge hardened steel protects against cutting and sawing.
  - Hardened Boron Alloy staple resist cutting and sawing.
  - Rolled edges protect against prying and conceal mounting screws.
  - Hinge pins are hidden and are virtually impossible to remove.

For use with 6270 & 6271 padlocks.

SUPER SPECIAL PRICING AVAILABLE ON ITEMS MARKED WITH ❄️ - SUPPLIES LIMITED - PLEASE INQUIRE.
Pro Series Weather Tough™ rekeyable padlocks from Master Lock not only stand up to severe abuse, they also stand up to severe weather. Designed especially for outdoor commercial use, these Pro Series locks feature tough hardened BORON alloy shackles to repel saws and bolt cutters. Dual locking shackles resist forcing or prying, and special pick resistant spool pins prevent unauthorized entry. But what makes these padlocks unique is their weather tough design. A durable thermal plastic cover protects the lock body and key cylinder from dirt, dust, and other contaminants. Special drain channels actually move water and other debris though the lock body and away from the lock mechanism for years of trouble free operation in the most severe conditions. Pro Series Weather Tough™ locks are ideal for outdoor commercial applications where weather is a problem and security is a concern.

Master Pro Series Weather Tough™ padlock with 2-1/8" wide steel case and 5-pin W6000 removable cylinder. Replaceable 5/16" dia. hardened BORON alloy shackle. Shackle clearance 1-1/8" or 2-3/8" vertical, 7/8" horizontal. Dual hardened steel balls lock each shackle leg independently. Weather resistant thermal plastic lock cover and cylinder dust cover.

PADLOCKS

PRO SERIES

HIGH SECURITY REKEYABLE COMMERCIAL USE PADLOCKS

Pro Series High Security rekeyable padlocks from Master Lock match your toughest security threats. Designed especially for high security commercial use, these Padlocks feature hardened BORON alloy shackles which provide up to 16,000 pounds of shackle pull strength and include dual deadbolt locking for extreme resistance to prying. Massive steel shackle guard repels saw and bolt cutter attacks. Five pin cylinders with special pick resistant spool pins make the locks virtually impossible to pick. These features combine to make Pro Series High Security locks stand up to an incredible attack. All locks have precision, removable cylinders and replaceable shackles.

ONE KEY SYSTEM™ - (UP)

Customers want their padlocks to work with their existing keys. Until now, their options have been limited. They could search for a retailer that stocked their number, factory order the padlocks and wait weeks, or buy padlocks that don't match their keys and add more keys, and confusion, to their key ring.

The Master Lock One Key System™ solves the problem. Now every No. 1, No. 3 or No. 5 padlock your customer buys can be keyed to their existing key (1K keyway), on the spot. It's easy and convenient. If the customer's key is a Master 1K keyway, in-store customer keying of a Master No. 1, No. 3 or No. 5 padlock can be performed in minutes.

MA-376
Punch tool to set up the cylinder of an uncoded "UP" padlock with the tap of a hammer.

NOTE: The new design shown is a rolling change. We cannot guarantee that you don't get the old style, shown below.

## Laminated Rekeyable Pin Tumbler Padlocks

High-security padlocks from Master, offering special removable-cylinder provision. Easy for authorized person to quickly match-up to existing keyed-alike or master-keyed systems, or to change lock cylinder whenever the security of an existing key becomes doubtful due to loss of key, turnover in personnel, etc. Nos. 21, 25 and 27 are also available with separate shackles allowing users to install a variety of shackle lengths in lock bodies on-the-spot, eliminating the need to stock extensive inventories (lock bodies come with shackle retainer plate unclenched; simply add desired shackle and clench the plate to permanently anchor the shackle in the body).

### SERIES 21

1-3/4” wide laminated steel body. Pin tumbler cylinder and special keyway. Hardened steel shackle 5/16” diameter. Shackle clearance 15/16”, 1-1/2”, 2-1/2” or 5-3/4” vertical, 3/4” horizontal. Dual hardened-steel levers lock each shackle independently. (Bodies also available without shackles installed to accept a range of optional long shackles.)

## Breakaway Shackle

The padlocks that's made to be broken! Regular Master #500 laminated steel padlock with specially constructed shackle that can easily be shattered in an emergency by a blow from a hammer, wrench or similar instrument. Specified by leading fire insurance underwriters for equipping sprinkler shut-off valves and fire hoses. Prevents tampering with the hose housing or sprinkler system, but provides fast, easy access when necessary. Also permits ready inspection by fire inspectors and fire equipment servicing companies. Padlock has 1-3/4" wide laminated steel body. Warded type locking mechanism. Cadmium rustproofed. Shackle diameter 9/32". Clearances: vertical 13/16", horizontal 13/16". 2 keys. Keyed Alike* 500BRK KA 13/16" vertical clearance

*KEYED ALIKE NUMBERS STOCKED: 500BRK KA: 197, 267.

## Additional Options

- **500 LF KA**: 1-1/2" vertical clearance. Keyed Alike* 195.

SOLID RECTANGULAR BRASS TRAILER COUPLER LOCK

605DAT

2-1/4" solid brass coupler lock with anti-sawing pin for maximum protection. Case-hardened steel shackle resists cutting and sawing. Solid brass case resists corrosion. Precision pin tumbler mechanism for superior pick resistance.

UNIVERSAL TRAILER COUPLER LOCK

377DAT

Universal coupler lock fits 1-7/8" and 2" ball diameters of the following coupler brands: Reese®, Fulton, Valley, Attwood®, Putnam, Marvel, Ideal, Acme, Dutton-Lainson and UFP. Easy to install and remove. Resists rust and corrosion. Guards against trailer towaway theft.

CLASS III/IV RECEIVER HITCH LOCK 5/8" PIN & SNAP-ON RECEIVER LOCK

375DAT

5/8" pin fits standard 2" receiver tube. Nickel-plated, hardened steel pin resists corrosion and provides strong cut and shear resistances. The lock body snaps (and locks) onto the receiver pin for fast and trouble-free application. The pin tumbler mechanism offers maximum pick resistance while the solid brass keyway and vinyl cover allows for extended weather protection.

SPARE TIRE LOCKS

262DAT

Spare tire lock, lug nut style. Ideal for locking spare tires on RV's, truck, etc.

**SEPARATE CYLINDERS**

All Pro Series padlocks from Master Lock have removable cylinders that can be changed instantly whenever security is compromised due to lost keys or employee turnover. Separate cylinders can be ordered in four, five and six pin configurations depending upon the security level desired. Optional six pin cylinders provide high security, high pick resistance, and over 100,000 possible key changes to virtually eliminate any possibility of duplication. Five pin W6000 cylinders include special pick resistant spool pins and are standard on all Pro Series padlocks. All cylinders can be pinned to match existing Master padlock key systems. **Minimum 2 of a cylinder** (includes 2 keys per cylinder)

For 6121, 6125, 6127, 6230, 6321, 6325, 6327, 6830, 6835, 6840 and 6850 Series
